The Human Rights Commission,

Noting the improvements of the Iranian government regarding human rights,

Aware of the different ideologies in comparison to the west and east,

Expressing concern over the imposition of unilateral sanctions on Iran by certain countries with a negative impact on the country's defense,

Alarmed by the developing misconceptions as a result from the western propaganda throughout the medias,

Recalling the right of every nation to defend itself against external threats and recognizing the need for the Iranian government to take measures to safeguard its sovereignty and territorial integrity,

- 1) Calls for changing existing laws, including the law of wearing of a hijab by:
 - a) requesting that the UN accompanies Iran into further developments regarding human rights,
 - b) encouraging the prioritization of the protection and promotion of human rights with the support from the UN;

2) Expresses its admiration for developing an effective communication and collaboration between individuals and groups from different cultural backgrounds through:

- a) the eastern countries working on their laws which violate the human rights and try to fulfill the demands of the people, because people make the culture, not the government,

- b) adapting our approaches and strategies to account for the characteristics of eastern ideologies, in order to better engage with and meet the needs of individuals and communities from these cultural contexts;
- 3) Recognizing the negative Impact of a nation's as well as the global economy and a cause of collateral damage on ordinary citizens:
- a) draws the attention to the possible escalation that further sanction imposed on Iran could lead to,
 - b) loosen the sanctions on Iran under the condition that Iran loosens their laws and takes a step towards human rights;
- 4) Demonstrating the truth behind involved propaganda in order to clarify misconceptions:
- a) encourages the opposition to get a closer overview regarding fairness offered by the islam before making up criticism,
 - b) recommends to be taken into consideration that no double morals are initiated,
 - c) the easing of achieving a media which involves freedom of speech;
- 5) Welcomes further suggestions on the issue.
